ABOUT US

Pediatrics Respiratory society Delhi (PRS Delhi) was launched in the year 2005 with the primary aim of promoting respiratory health of children in Delhi and NCR. PRS Delhi is registered under the societies act and consist of a group of pediatricians qualified and interested in the respiratory diseases in children.

PRS Delhi organizes regular CME s, workshops and other activities and publish quaterly journal to disseminate the latest medical guidelines, diagnostics, therapeutics and research in the field of pediatric pulmonology. It is also involved in organizing several awareness activities like world asthma day, world sleep day, TB day and other activities to promote preventive and promotive health in the public.

Delhi Respicon is the flagship annual conference of Pediatrics Respiratory Society Delhi and is organized every year in association with prominent hospitals of Delhi. It is attended by large number of general pediatricians, pediatric pulmonologists, resident doctors and PG students from Delhi and neighboring areas.

Delhi Respicon 2024 is being organized in association with department of pediatrics, Hindu Rao Hospital and North DMC Medical College Delhi. Its going to be an academic feast and is expected to be attended by large number of delegates from different spheres of medical practice.

WHY PARTNER WITH US?

Delhi Respicon 2024 is the flagship annual conference of Pediatrics Respiratory Society Delhi. Apart from great brand visibility in front of the specialized targeted audience, associating with Pediatrics Respiratory Society and Delhi Respicon 2024, as delegate or a business partner can offer numerous benefits.

- 1. Credibility and Expertise:** Pediatrics Respiratory Society Delhi (PRS Delhi) brings credibility and expertise to the conference, enhancing its reputation and attracting a high level of interest from professionals in the field.
- 2. Access to Resources:** As state chapter of prestigious Indian Academy of Pediatrics' National Respiratory Chapter, PRS Delhi has access to a wealth of resources, including expert speakers, research materials, and educational tools, which can greatly enhance the quality of the conference.
- 3. Networking Opportunities:** Partnering with a well-established society and conference can facilitate networking opportunities for attendees, allowing them to connect with leading professionals, researchers, and clinicians in the field of pediatric respiratory care.
- 4. Targeted Audience:** Pediatrics Respiratory Society Delhi has a built-in audience of members who are greatly interested in the conference topics, ensuring a more targeted and relevant attendance.
- 5. Promotion and Marketing:** The society promotes the Delhi Respicon through its channels, such as website, social media, and member communications, helping to reach a wider and more specialized audience.
