Dear Colleagues,

It gives me immense pleasure to welcome you to **PedChestCON Delhi 2026**, the Annual Conference of the Pediatrics Respiratory Society – Delhi, being held on 6th September 2026 at Maulana Azad Medical College and Lok Nayak Hospital, New Delhi.

The field of pediatric respiratory medicine is evolving rapidly, with remarkable advances in diagnostics, therapeutics, interventional procedures, and precision medicine. As clinicians and academicians, we have a shared responsibility to translate these innovations into meaningful improvements in the respiratory health and well-being of children.

The theme of this year's conference, "**Innovation, Intervention and Impact in Pediatric Respiratory Medicine**," reflects our commitment to embracing new technologies, refining clinical interventions, and measuring success through tangible patient outcomes. The scientific program has been thoughtfully designed to provide a platform for learning, discussion, and exchange of ideas among experts, practitioners, researchers, and trainees.

Delhi RespiCon 2026 aims to foster collaboration, stimulate academic inquiry, and inspire the next generation of pediatric respiratory specialists. Through keynote lectures, expert panel discussions, interactive case-based sessions, and evidence-based updates, we hope to address contemporary challenges and explore emerging opportunities in child lung health.

I extend my sincere gratitude to the organizing committee, faculty members, scientific advisors, and all contributors for their complete dedication and continued commitment to advancing pediatric respiratory care.

We look forward to welcoming you to Delhi for a day of enriching scientific deliberations, professional networking, and shared learning.

With warm regards,

Neetu Talwar

President

Pediatrics Respiratory Society, Delhi
